Montango

The Music, Dance and Song of Argentine Tango

Recently back from rock legend Steve Miller's state of the art recording studio in Sun Valley, Montango is now celebrating their 2nd CD release "Recuerdo", which includes original works in the Tango Nueva style.

Montango was founded by Tom Montgomery to perform the music, dance and songs of Argentine Tango. Tom's passion for Tango led him to the study of the Argentine bandoneon, the Tango instrument that he plays on recordings and in live performances. The group is now composed of a quintet, female vocalist and internationally acclaimed tango dancers.

They enjoy the support of such enthusiasts such as Joel Selvin of the S.F. Chronicle, Grammy-winner Gene Puerling and Marin County residents Huey Lewis and Mickey Hart.

What they say about MonTango:

" A powerful and passionate interpretation of Piazzolla's work!" Pampa Cortés, internationally celebrated Tango star, featured in the original production of the Broadway hit "Forever Tango"

"It has been a pleasure to listen to your CDs, I really like it very much. You did a great work with my father's music in both CDs. What a great family you have and good musicians too! Thank you very much for playing Astor's music.... Daniel Piazzolla, son of legendary Tango composer Astor Piazzolla

"MonTango is pure joy. Piazzolla would be very happy. You'll love their CDs!"
Gene Puerling - Grammy Award winning arranger/vocalist

"What a great night!..... you were magnificent,..... and the show is fascinating!..... Working with you is truly a pleasure. "Steve Miller - Steve Miller Band / Producer

"Really great CD...and the live show is terrific. It's my first experience with tango, and it won't be my last!" Huey Lewis - Huey Lewis and the News

"...both ethereal and intense...hear (them) for yourself! "Joel Selvin, Entertainment Critic, San Francisco Chronicle

"...captures Piazzolla's craft and adds charmed nuances...real fire onstage"
R. Nachman, Music Critic, SF Gate

The Music, the Dance and the Poetry of the Songs are brought together in a concert that serves to deepen audience appreciation for the richness of this fascinating cultural tradition.
